ANNUAL ASSEMBLY 2019

or
Evidence Based Laboratory Medicine

28. - 30. August 2019
Technopark, Zurich

Welcome to Zurich

Willkommen in Zürich

Bienvenue à Zurich

Benvenuto a Zurigo

Fake News or Evidence Based Laboratory Medicine

Dear colleagues, ladies and gentlemen

It is my great pleasure to welcome you at the Annual Assembly 2019 of the Swiss Society of Clinical Chemistry in the city of Zurich with its historic cultural sites and trendy re-urbanized industrial parts.

The title of our Annual Assembly 2019 may sound sensationalist to some of you, when we ask: “Fake-News or Evidence Based Laboratory Medicine?” - However, the organizing committee is convinced that Laboratory Medicine produces scientific evidence to support its role in medicine for the benefit of patients and that there is little room for “fake news” in our profession. In this sense, we look forward to hearing new evidence in screening, diagnosis, prognosis, and the follow-up of human diseases, while anticipating scientific dispute on controversial medical topics to differentiate “fake news” from evidence.

Following this year’s motto, the scientific program focuses on the clinical impact of Laboratory Medicine and expands the focus of Clinical Chemistry. We deliberately present a scientific program with a broad range of topics because we are convinced that professionals in Laboratory Medicine need to look beyond one’s own discipline. To live up to this, we invited other disciplines in Laboratory Medicine to discuss a range of medical topics focusing on novel diagnostic procedures and on the implementation of diagnostic guidelines.

Besides the state-of-the art presentations, there will be room for interactions with the diagnostic industry presenting their innovation at the large industry exhibition and for scientific exchange. We are pleased to present a stage for the diverse research performed in Switzerland during oral presentations and poster exhibitions, and we encourage you to inform yourself about emerging themes and novel developments in translation.

We wish you an exciting Annual Assembly 2019 of the Swiss Society of Clinical Chemistry and hope that you will enjoy plenty of face-to-face contact with professional colleagues in Zurich.

Prof. Dr. Martin Hersberger
Chair of the organizing committee

Sponsors

We thank the sponsors for their generous support of this conference.
Please join them in the exhibition area during coffee- and lunch break, as well as at the industry Apéro.

Arrival by public transport

- Tram no. 4 to Technopark, walk 2 minutes
- Tram no. 17 to Förrlibuckstrasse, walk 4 minutes
- Tram no. 4, 13 or 17 to Escher-Wyss-Platz, walk 8 minutes
- Bus no. 33 to Schiffbau, walk 4 minutes
- Bus no. 72 to Schiffbau, walk 4 minutes
- S-Bahn lines S3 / S5 / S6 / S7 / S9/ S12 / S15 / S16 to Hardbrücke, walk 8 minutes

Arrival by car

- from St. Gallen / Airport: via Rosengartenstrasse, Escher-Wyss-Platz (bridge), Hardturmstrasse, Förrlibuckstrasse, Duttweilerstrasse (Toni-Molkerei), Pfingstweidstrasse, Technoparkstrasse
- from Bern / Basel: via Pfingstweidstrasse, Technoparkstrasse
- from Lucern / Chur: via Hardbrücke, Geroldrampe, Schiffbau, Technoparkstrasse
- from the City: via Escher-Wyss-Platz, Hardstrasse or Hardturmstrasse

Parking facilities (subject to charges)

- Parking garage Technopark
- Parking garage Puls 5
- Parking garage West
- Parking garage Pfingstweid

General Information

Internet access

Free WIFI will be available at the exhibition area and the auditorium.

Login details:

WLAN: SGKC2019

Password: congress19

Food

Catering during coffee and lunch breaks and the industry Apéro will be provided in the exhibition area. All catering in the exhibition area is included in the conference registration.

Language

The official language of the conference is English. Presentations can be held in English, German or French. However, PowerPoint slides of all presentations should be in English.

Registration desk

The registration desk is located in front of the Auditorium, opens one hour before the program starts and is open during congress hours. Payment for onsite registration is possible with cash only.

Gala dinner

The gala dinner will take place at the restaurant uniTurm Zurich, on Thursday, 29 August 2019 at 19:00 h. Tickets for the gala dinner (90 CHF) can be purchased during registration on the website or onsite at the registration desk (cash payment only) - please note, the seats are limited.

Credits

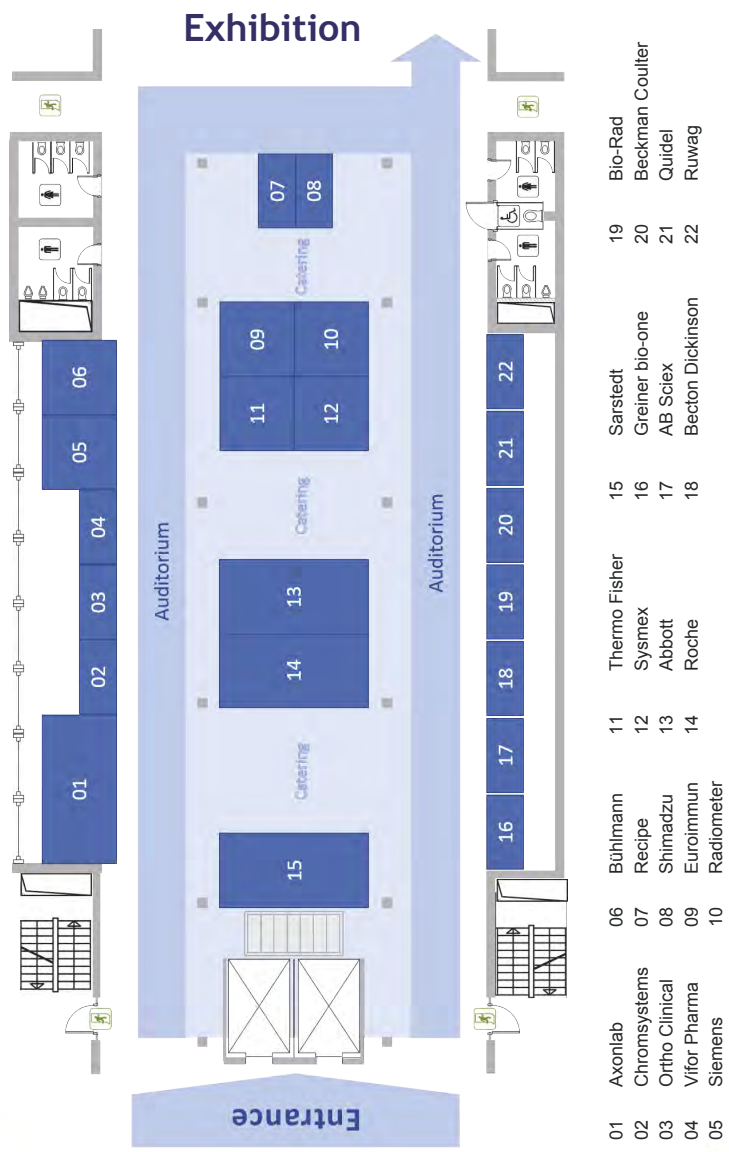

The following credits will be awarded for participation at the conference:
Wednesday: 4 CME credit points FAMH
Thursday: 6 CME credit points FAMH
Friday: 3 CME credit points FAMH

Abstracts, Presentations and Awards

Oral presentation of selected abstracts

Presentations of selected abstracts will take place on Wednesday, 28 August 2019 at the auditorium, from 16:30 - 17:30 h. Presentation time is 10 min per abstract, followed by 5 min for questions and discussion. Please hand your presentation to the technician onsite in the auditorium at least one hour before the start of the session by USB drive.

Poster presentations

Posters should be prepared in English in A0 portrait format (841 x 1189 mm). Posters should be mounted at the beginning of the conference and remain on display for the entire duration of the meeting. Material for mounting the posters will be provided onsite.

Guided poster exhibition

The guided poster session will take place on Thursday, 29 August 2019 from 13:30 - 14:00 h at the auditorium. All selected authors are kindly asked to be present at their poster.

Abstract booklet

The abstract booklet is available for download at the conference website www.sgkc2019.ch under "Abstracts". The password to open the file is: **NoFakeNews2019**

Abstracts will be published in an upcoming issue of Clinical Chemistry and Laboratory Medicine (CCLM).

Awards

The best oral presentation from the selected abstracts and the best poster presentation will receive an award. Awards will be presented on Friday, 30 August 2019, from 12:15 - 12:30 h at the auditorium.

Notes

Erleben Sie die Leistungsfähigkeit der Atellica® Solution

Flexible, skalierbare, automationsfähige Analyzer für klinische Chemie und Immundiagnostik

- Deutlich schneller als herkömmliche Proben-Transportbänder
- Wegweisende Technologie, die Ihnen unabhängige Kontrolle über jede einzelne Probe gibt
- Bis zu 440 Tests pro Stunde* – branchenweit die höchste Produktivität pro Quadratmeter
- Mehr als 300 anpassbare Konfigurationen, einschliesslich linearer, L- und U-Form

siemens-healthineers.ch/atellica

* Abhängig vom Test Mix.

Poster Presentations

1 **A 2D HPLC-MS/MS Method for Several Antibiotics**

Sophia Rehm, Katharina Rentsch

2 **A Fast Method for Quantification of Venetoclax by LC-MS/MS**

Regula Steiner, Daniel Müller

3 **A New KI Rat Model of Creatine Transporter Deficiency**

Lara Duran-Trio, Gabriella Fernandes-Pires, Marc Loup, Jérôme Grosse, Carmen Sandi, Cristina Cudalbu, Olivier Braissant

4 **Albumin-Adjusted Calcium: The Formula Matters!**

Ursula Amstutz, Anca Liliana Cismaru, Livia Grimm, Michael Nagler

5 **Anti-Inflammatory Effect of Omega-3 Fatty Acids on Activated CD4+T Cells**

Paulina Wawrzyniak, Pakeerathan Srikanthan, Claudio Gemperle, Déborah Mathis, Martin Hersberger

6 **Assessment of the Phenotypic Impact of DPYD Polymorphisms in Healthy Blood Donors**
